

I subscribe to and listen to XM Satellite Radio and its traffic and weather channels. Satellite radio provides me a large variety of music and talk programs that do not have the banal talking heads and insulting commercials of the local radio stations. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
